

BelleView #300-25 Submitted by Judith Stoikov

Our house is known as "BelleView". It was built originally in 1974 by the Peters. I purchased it in 1992 from the estate of Mrs. Peters and extensively renovated it using Tom Bertolino as my contractor. After Hurricane Luis in 1995, the porch deck was replaced and a pool was added. Around 2013, a new master bedroom suite was constructed from two existing bedrooms/bathrooms. After Hurricane Irma in 2017, two of the three pods and all the decks were rebuilt and refurbished and solar panels with Tesla powerwalls were installed. Construction, supervised by Ken Betts, was completed in 2019-20.
